

Township of Chapleau

Zoning By-Law 2013-11

Approved by the Ontario Municipal Board

September 9, 2014

Preamble

The Township of Chapleau Zoning By-law comprises 13 sections, all of which are briefly discussed in this section. Further, this Section provides a general description of how each Section of the By-law should be used. This Section is provided for information purposes only and does not form part of the By-law.

1.1 SECTIONS OF THE BY-LAW

The Zoning By-law comprises the following Sections:

- › **Section 1.0 – General:** Addresses legal matters of the By-law, including its name, scope and other matters;
- › **Section 2.0 – Interpretation:** Addresses how the By-law is to be interpreted with respect to the use and meaning of terms, and the interpretation of special use regulations;
- › **Section 3.0 – Administration:** Addresses the administration of the By-law and the relationship of the By-law to issuance of building permits, certificates of occupancy and other administrative or legal matters;
- › **Section 4.0 – Definitions:** The Zoning By-law is a legal document, and as such, it must be clear and easily interpreted in order to be effective. Section 4.0 provides the definitions for terms and uses identified within this By-law. In some cases, the definition of a term may be technical in nature, and as such, understanding the definitions is critical to ensuring conformity with the Zoning By-law. For some technical or complex definitions, a diagram may be provided to help clarify the meaning of a term, for illustration purposes only. Where a definition for a term is provided in Section 4.0, the term is *italicized* in the text of the By-law;
- › **Section 5.0 – Zones and Zoning Maps:** Establishes the zones, zone symbols and the zoning maps (Schedule A). Section 4.0 also provides provisions regarding the interpretation of the zoning maps, as well as holding (h) zone provisions. For convenience, each zone established in the By-law is given a zone symbol, usually consisting of one or two capitalized letters and possibly a number, and written with no spaces (e.g., R1 is the zone symbol for the Residential Type 1 zone). The zoning maps illustrate the zoning of the Township by assigning zone symbols to delineated areas in the Township. Since there may be some degree of uncertainty regarding the interpretation of the zoning maps (i.e., the exact extent of the zones), Section 5.0 also provides direction on how the zoning maps shall be interpreted;
- › **Section 6.0 – General Provisions:** Contains the provisions that are applicable to all of the zones, and may be applicable to particular uses, buildings or

structures. All forms of development and all changes in land use must comply with all of the applicable general provisions. The general provisions regulate such matters as: general requirements for setbacks, yards, lot frontage, etc.; uses permitted or prohibited in all zones; specific use regulations; requirements for parking, access, driveways, and loading; regulations for accessory uses, buildings and structures; permitted yard encroachments; regulations regarding landscaping and buffering; and regulations regarding development in open spaces and hazard lands;

- › **Sections 7.0-13.0 – Permitted Uses and Zone Regulations:** Each zone identifies the uses that are permitted. The permitted uses are organized in a tabular format for ease of reference and to allow a comparison of the permitted uses across the particular zones. Each of the permitted uses are subject to the applicable Zone Regulations provided in the corresponding section in addition to the General Provisions and the site specific qualifications provided in Section 6.0, where applicable;

Each zone may also include a number of exception zones, which are listed following the lot and building regulations for each zone. Exception zones are usually applied to a single property, but may be applicable to more than one property. Exception zones may provide specific regulations, additional permitted uses, or a restricted list of permitted uses that apply to all properties that are zoned with the exception. Unless specifically stated in the regulations for each exception zone, the zone regulations that apply to the parent zone, the general provisions (Section 6.0), the list of permitted uses and the applicable zone regulations will still apply to the exception zone; and

- › **Schedule A:** Illustrates the zoning of the Township. The Schedule should be read in conjunction with the text of this Zoning By-law.

1.0 General

1.2 TITLE

This By-law may be cited as the “Township of Chapleau Zoning By-law.”

1.3 APPLICATION

The provisions of this By-law shall apply to all lands within the boundaries of the Corporation of the Township of Chapleau.

1.4 SCOPE

No lands shall be used and no *buildings* or *structures* shall be *erected*, structurally *altered* or enlarged, or used, within the Township of Chapleau except in conformity with the provisions of this By-law.

1.5 DEEMED TO COMPLY WHERE BUILDING PERMIT ISSUED

Where a building permit has been issued for a building or structure in accordance with the Ontario Building Code, and such building or structure does not comply with this By-law, such building or structure shall be deemed to comply with this By-law.

1.6 REPLACEMENT OF EXISTING BY-LAWS

From the coming into force of this By-law, all previous by-laws passed under Section 34 of the *Planning Act*, or a predecessor thereof, shall be replaced by the provisions of this By-law, except to the extent that any of the said By-laws prohibit the use of any land, building or structure for a purpose that is also prohibited by this By-law.

1.7 APPLICATION OF OTHER BY-LAWS

Nothing in this By-law shall serve to relieve any *person* from the obligation to comply with the requirements of the Ontario Building Code or any other By-law of the Township in force from time to time or the obligation to obtain any license, permit, authority or approval required under any By-law or by the Township or by any other regulation of the Province of Ontario or Government of Canada.

1.8 GREATER RESTRICTIONS OF OTHERS TO GOVERN

Nothing in this By-law shall reduce the severity of restrictions lawfully imposed by a governmental authority having jurisdiction to make such restriction.

1.9 VALIDITY AND SEVERABILITY

Should any Section, clause or provision of this By-law, including any part of the zones as shown on Schedule A, be held by a court of competent jurisdiction to be invalid, the validity of the remainder of the By-law shall not be affected.

1.10 EFFECTIVE DATE

This By-law shall come into force on the date of passage by the Council of the Township of Chapleau.

2.0 Interpretation

2.1 GENERAL

- (a) Minimum Requirements: In interpreting and applying the provisions of this By-law, the said provisions are held to be the minimum requirements for the promotion of the health, safety, comfort, convenience, and general welfare of the inhabitants of the Township.
- (b) Except for those specifically stated as being maximum, any numerical figures in this By-law shall be the minimum requirements.
- (c) Meaning of Use: Unless the context otherwise requires, the expression "use" (as a verb) or "to use" in this By-law, shall include anything done or permitted by the owner or occupant of any land, *building*, or *structure*, directly or indirectly or by or through any trustee, tenant, servant or agent, acting for or with the knowledge or consent of such owner or occupant, for the purpose of making use of the said land, *building* or *structure*.

2.2 SPECIAL USE REGULATIONS FOR DEFINED AREAS

To each defined area within any zone, special use regulations established by this By-law may be applied with respect to such defined area and, in addition to such special regulations, all provisions of this By-law, including the general regulations applicable to the zone within which the defined area is located, shall apply to the defined area provided that, unless a contrary intention appears from the special use regulations:

- (a) If the special use regulations are different from the corresponding regulations of this By-law, including the general regulations applicable to the zone within which the defined area is located, the special regulations shall supersede and prevail over such corresponding regulations of this By-law.

2.0 INTERPRETATION

- (b) If the special use regulations establish one or more specifically permitted uses for the defined area, such permitted use or uses shall be the only purpose or purposes for which the defined area may be used, unless otherwise specified.
- (c) If the special use regulations specifically permit one or more uses in addition to those otherwise permitted in the zone within which the defined area is located, any and all of the other special use regulations applicable to the defined areas shall apply only to the additional permitted use or uses, and not to uses otherwise permitted in the zone, unless otherwise specified.

3.0 Administration

3.1 ADMINISTRATION

This By-law shall be administered by the *By-law Enforcement Officer*, or any other *person* as the *Council* designates.

3.2 LICENSES AND PERMITS

In addition to fulfilling the requirements of any By-law enacted pursuant to Section 34 of the *Planning Act*, no *person* shall commence to *use* any lands to *erect*, *occupy*, *alter*, enlarge or *use* any *buildings* or *structures* until a building permit has been applied for and received from the *Chief Building Official*.

3.6 APPLICATION FOR CERTIFICATE OF OCCUPANCY AND BUILDING PERMIT

The lack of a survey or a mistake does not relieve any *person* from liability for not complying with the requirements of this By-law. The responsibility is not upon the Township, whose rights are preserved even in the case of a mistake of its own official.

3.7 INSPECTION OF PREMISES

The *Chief Building Official*, the *By-law Enforcement Officer* or any employee of the Township so directed may, at any reasonable hour, enter and inspect a property or premises where there is reason to believe that any land has been used or any *building* or *structure* has been *erected*, structurally *altered* or enlarged, or used, in violation of any of the provisions of this By-law.

5.3 USE OF ZONE SYMBOLS

The symbols listed in Section 5.2 shall be used to refer to land, *buildings*, and *structures* and to the use thereof permitted by this by-law in the said zones, and whenever in this by-law the word “zone” is used, preceded by any of the said symbols, such zone shall mean any area within the Township delineated on the zoning maps and designated thereon by the said symbol.

5.4 DEFINED AREAS

Certain areas within any of the various zones or within parts of more than one zone may be more specifically regulated and such areas shall be known as “defined areas”. All zones may be subdivided into one or more defined areas which shall be designated by reference to the symbol of the zone within which each such defined area is located together with an additional symbol, either letter, number, or both, so as to differentiate different defined areas within a zone from each other and from other areas within the zone.

Where the zoning applying to any *lot* or area includes the symbol (h) suffixed to any zone symbol, only *existing* uses shall be permitted until such time as the (h) is removed. Application of the (h) symbol indicates that *development* of the lands is premature at the present time. However, it does indicate the use to which lands, *buildings* or *structures* may be put at such time in the future as the holding symbol is removed by amendment to this by-law in accordance with Section 36 of the *Planning Act*. Section 6.3.2.1 of the Township of Chapleau Official Plan outlines the criteria to be satisfied in order to remove the holding symbol (h); however, more specific

- (a) The boundary of the zones and defined areas are the *street centrelines* or the *lot lines* and the projection thereof, unless otherwise shown.

- (c) Where zone boundaries or defined area boundaries are indicated as approximately parallel to the *street line* and the distance from such *street line* is not indicated, such zone boundaries or defined area boundaries shall be construed as being parallel to such *street line* and the distance therefrom shall be determined by the use of the scale shown on the zoning maps.
- (d) Where a street, *private road*, or electrical transmission line *right-of-way*, or *watercourse* include on the zoning maps, is included within the zone or defined area of the adjoining property on either side thereof, and where such street, *private road*, *right-of-way*, or *watercourse* serves as a boundary between two or more different zones, defined areas or both, a line midway in such street, *private road*, *right-of-way*, or *watercourse* and extending in the general direction of the long division thereof is

considered the boundary between zones, defined areas, or both, unless specifically indicated otherwise.

- (e) Where a dedicated *street* or *right-of-way* shown on the map is closed, the property formerly in the said *street* or *right-of-way* shall be included within the zone or defined area of the adjoining property on either side of the said closed *street* or *right-of-way* and the zone boundary or defined area boundary shall be the former *street centerline* of said closed *street* or *right-of-way*.
- (f) Where a zone or defined area boundary is indicated as following the edge of *watercourse*, the boundary shall follow the *top of bank* of such *watercourse* and, in the event that the *top of bank* of such *watercourse* changes, the boundary shall be taken as having moved with the *top of bank*.
